`LOAD WRANGLER` `>OPEN RANGE< HIP BELT` `HOIST COMPRESSION`

MEN'S FIT   Built in two sizes, men's medium and large, to ensure proper fit and comfort. Custom fit adjustments efficiently transfer the load to your body so can carry more weight, more comfortably. With a body mapped back panel, contoured shoulder straps, and Open Range Hip Belt for added stability, these packs provide a precise fit for maximum support and comfort.

Features

- 63L multiday pack with adjustable fit through custom frame sheet and shoulder straps that deliver positive load transfer for more balance on the trail
- Custom injection molded frame sheet anatomically engineered to fit the body provides torsional stability, maximizing support to weight ratio
- Comfort and support through contoured, anatomically curved back panel with body mapped foam for a precise fit with ventilation
- Cut-to-fit hip belt provides a tight wrap on hips and eliminates gaps between body and pack. Dual hip belt stabilizer straps allow the upper and lower section of the hip belt to be adjusted separately for a custom fit
- Dual hip belt stabilizer straps allow the upper and lower section of the hip belt to be adjusted separately facilitating a custom wrap around your hips
- Premium contoured shoulder straps featuring adjustable sternum strap and hydration hose keeper. Load lifter straps allow fine tuning of weight distribution
- Customizable pack fit for three torso lengths. Shoulder straps easily connect directly into keyed slots on frame
- Balanced pack weight is achieved through our unique Hoist Compression system that pulls pack weight inward and

- upward for positive load transfer, while raising the bottom panel up to secure the load
- Injection molded frame sheet, cored aluminum perimeter frame, shoulder straps, and hip belt function as a fully integrated suspension system that provides more balance on uneven terrain through a positive load transfer
- Top-loading access with spin drift collar, collar adds 10L to pack volume when fully extended. Bonus storage in removable lid with two zip pockets, key keeper, and four adjustable compression straps. Pack closes securely even when lid is removed
- Internal 3L hydration bladder pocket with bladder hook, discreet tube routing port, and hose keeper clip on sternum strap
- Compartmentalized storage includes: two zip pockets with key keeper on removable lid, hydration bladder pocket, two stretch mesh side pockets, front quick-stash pocket, and front zip pocket
- Stash trekking poles on pack exterior using webbing and bungee cord loops. Also features daisy chain loops, bottom lash loops on pack exterior for extras, and top grab handle for easy movability
- Includes two 1.6L removable Hip Pockets for stashing little ditties and a 7L Trash Can for camp trash and collecting litter on the trail
- Accessory rain cover - sold separately

Measuring Torso Length

C7 Vertebrae

Torso Length

Iliac Crest

Hip Bone
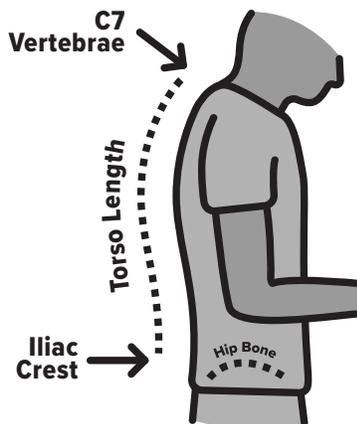

Backpack sizes are determined by torso length. You'll want a friend and a tape measure to get this job done. Measure the distance between your C7 Vertabrae and Iliac Crest to find your torso length.
