

STASHA G2

SET UP INSTRUCTIONS

WARNING:

KEEP ALL FLAME AND HEAT SOURCES AWAY FROM THIS TENT. THIS TENT MEETS THE FLAMMABILITY REQUIREMENTS OF CPAI-84 (US) / ISO6941 (UK) / (EN5912) (UK). THE FABRIC MAY BURN IF LEFT IN CONTINUOUS CONTACT WITH ANY FLAME SOURCE. THE APPLICATION OF ANY FOREIGN SUBSTANCE TO THE TENT FABRIC MAY RENDER THE FLAME-RESISTANT PROPERTIES INEFFECTIVE.

The **Snugpak**® Stasha G2 improves on the concept of the original British Military Basha and is the compact and lightweight alternative to the **Snugpak**® All Weather Shelter. The Stasha G2 is a traditional rectangular design (2.44m/8ft x 1.63m/5ft). As the name implies, the shelter can pack down to be stashed almost anywhere, even a jacket pocket! Made with 100% waterproof, lightweight polyester, weighing just 370g, this is the ideal complement to any outdoor pack or fast & light activity.

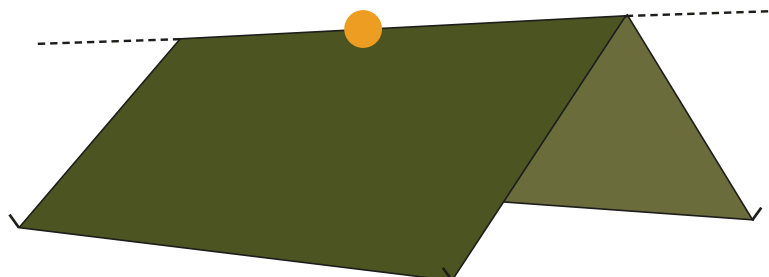

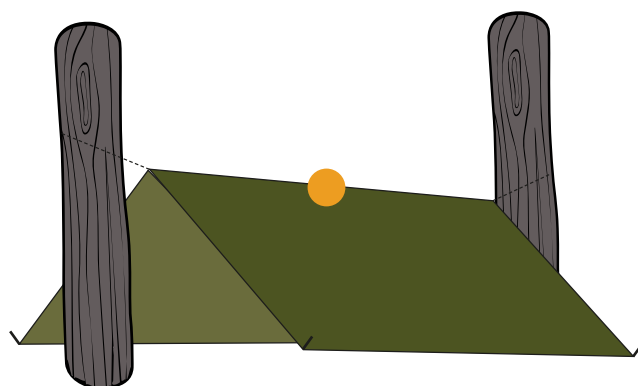

It is designed for Bushcraft, Wild Camping, Adventure Races, Group Activities, Military, and can also be utilised as an emergency stretcher if necessary.

Developed by experienced military veterans, the **Snugpak**® Stasha G2 can configure as a Fly, Tarp, Lean-to Shelter, emergency bivvy as well as other freestanding shelter designs, making it the perfect choice for all year round protection against sun, wind, rain and snow.

FLY TARP

RIDGE LINE LENGTH

8ft (2.44m)
Across the long side

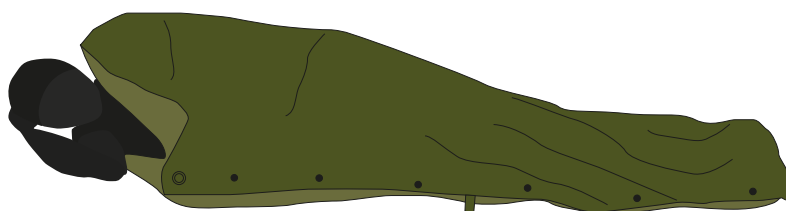

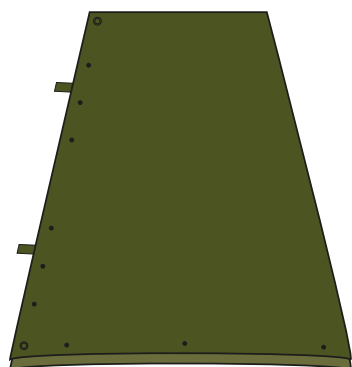

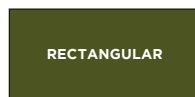

This pitch provides an asymmetric shelter for more equalised storm protection when the wind is variable.

Find two trees that have enough room between them to pitch your tarp and choose what height you would like it.

Work the paracord line around the trees to slide the tarp left or right to position it over your camp or hammock, then attach pegs to each corner of your tarp and peg them out. **(Ridgeline paracord and pegs not included)**

EMERGENCY BIVVY

Great for emergency situations and ambitious fast-and-light adventures, weigh almost nothing you can fit them in your pocket.

Fold the Stasha G2 over at the long edge to create an emergency bivvy. Clip the press studs together. Big enough for one person.

WARNING: This product can expose you to chemicals including TDCCP, which are known to the state of California to cause cancer and birth defects or other reproductive harm. For more information go to: www.P65Warnings.ca.gov
